How can I get registered on **IBM bluemix**?
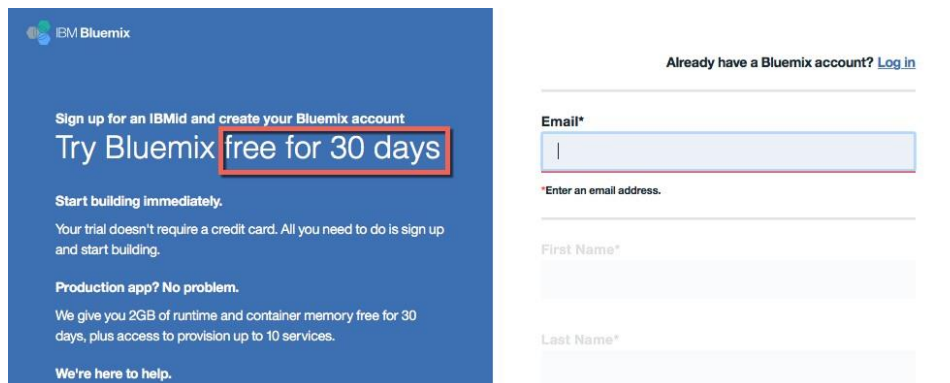

Create an IBM Bluemix Account

Step 1 In a web browser navigate to the following URL:

https://console.bluemix.net/registration/trial/

Step 2 Fill in the required information and press the button

Step 3 After you submit your registration, you will receive an e-mail from the IBM Bluemix team with details about your account. In this e-mail, you will need to click the link provided to confirm your registration

Step 4 Now you should login to your new Bluemix account to create the required *organization* and *space*.
   a) As *organization* you have to specify something **unique** like your IBM id or anything else.

   b) As *space* you can specify something like dev, test, or anything else.

Step 5 That's it! You now have a free 30 day trial with IBM Bluemix! At this point, you can log in (using the URL in **Step 1**) and begin exploring its features and capabilities.

How do I get registered on **Slack**?

1. Open in https://join.slack.com/t/ibmwatsonworkshop/signup browser and Enter your official college email address and click on **Create Account**.

2. Verify your slack account in **Gmail.**
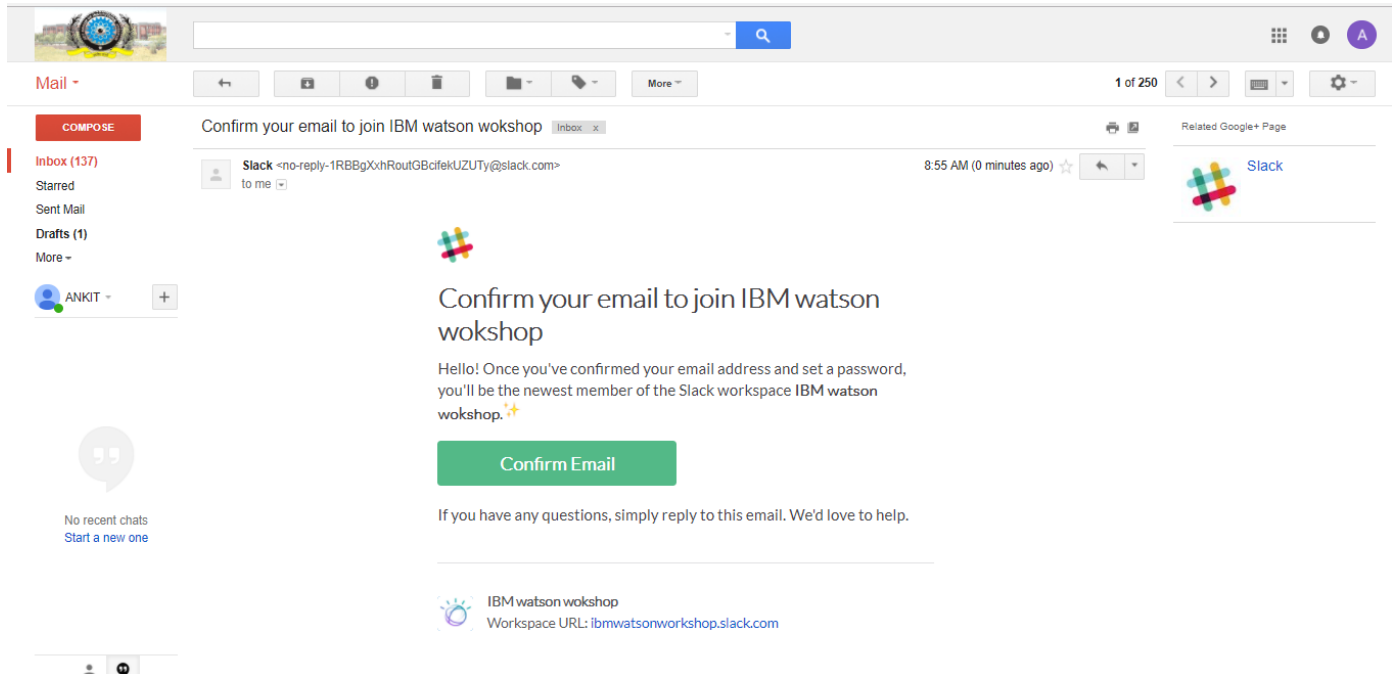

3. Now you can open slack from https://ibmwatsonworkshop.slack.com/ .
